President's Report

Dear Chamber Supporters,

Welcome to the Greater Saskatoon Chamber of Commerce, part of a world-wide network of Chambers all working to support business and community development.

We live and do business in a global environment. Businesses, no matter how large or small, have the opportunity to see the world in a flash through a myriad of technological innovations; we can hire employees that live time zones away, or if we are only interested in contracting, we can post our requirement on an international outsourcing site and have dozens of proposals within hours from all over the world; we can Skype with our suppliers; and make business connections with a few keystrokes. The world literally is shrinking and as a Chamber, with links to 130 countries through the International Chamber of Commerce, we have access to a wide network of contacts that can help our members grow.

We also live in a rich, culturally diverse local economy where we have the opportunity to bring new perspectives, markets, contacts, and ways of doing business into our framework, creating an economy that is stronger and even more world connected.

Business and industry organizations in our community are strong and growing. There are endless opportunities for us to work together to build capacity, innovate, advocate and create. Collaboration is the key to creating an environment where our youth want to stay and build their own enterprises or help existing companies build theirs; where our existing business community feels inspired to grow; where head offices see Saskatoon as a destination for growth; where investors are attracted to come; where we can build partnerships with Aboriginal businesses and organizations; where we can attract our brothers and sisters from around the world to select Saskatoon as their new home; and where we can celebrate our successes on the red carpet with pride.

We have a great team to represent the Chamber this coming year, as we did last year. I have been inspired and mentored by the leadership of our past Presidents. I am excited about the possibilities that will be generated and acted upon with our 2012 board of directors. We will work hard to continue building a framework to help capture those possibilities so that we can support the Chamber members with as much impact as possible.

Thanks to the ongoing excellent support of our Chamber staff: Kent, Breanne, Roz, Terry, Derek, Kevin, Linda and all the volunteers that help make this Chamber one of the best in the world to be part of. We encourage you to join us in whatever capacity you see fit and to let us know how we can best serve you, our members – the engine of growth in our community. Thank you!

Monica Kreuger
President 2011
